Art Unit: 2636

1. The following is an examiner's statement of reasons for allowance:

The prior art does not adequately disclose a system/method in an aircraft instrumentation display system for imaging flight information on a display comprising a rendering computer for rendering graphical data to a display based on sensed aircraft data, in the form of anti-aliased graphical imaging data for selectively actuating a multiplicity of display pixels, to graphically depict a plurality of dynamically changing flight parameters, a comparator processor for receiving sensor data and generating therefrom comparison imaging data with selected parts of the rendering computer generated imaging data for the plural flight parameters, to validate the imaging data generated by the rendering computer, the comparison imaging data only being compared to a predetermined subset of the plurality of pixels of the display pixels of the flight parameters generated by the rendering computer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Lance Lieberman on 6-21-04

Art Unit: 2636

On page 1 of the specification, line 4 after "10/020,784", --, now US Patent No. 6,693,558, -- was inserted.

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Thorner, Magor, O'Brien, McElreath and Goossen disclose display monitoring and verification systems.
